PRINT IS NOT DEAD.

Our brains remember print. Why? Because print
commands our attention in a way that digital ads
do not.

They are also more credible with a large number
of people (71 percent) trusting print ads over
television or online ads.

Newspapers are also far from dead with
nearly 70 percent of Americans still reading
them — 50 percent of those readers consume
them in print only. You gotta be in the paper!
