A QUICK REFERENCE GUIDE FOR EATERS • A SPACE TO ADVERTISE FOR EATERIES

A black and white photograph of a man in a cowboy hat riding a large dinosaur, likely a Tyrannosaurus Rex, in a desert-like environment. The man is wearing a dark jacket and a wide-brimmed hat, and is holding the reins of the dinosaur. The dinosaur is standing on its hind legs, with its mouth open, showing its teeth. The background is a dry, hilly landscape with some sparse vegetation.

PRINT IS NOT DEAD.

Our brains remember print. Why? Because print commands our attention in a way that digital ads do not.

They are also more credible with a large number of people (71 percent) trusting print ads over television or online ads.

Newspapers are also far from dead with nearly 70 percent of Americans still reading them — 50 percent of those readers consume them in print only. You gotta be in the paper!
