What guarantees do we have that the projects will be reclaimed and will not leave a mess in operations and after production?
This is not the cold war era of the 1950s and 1960s when uranium when environmental cleanup and employee safety at conventional uranium mines were afterthoughts. enCore will be required to secure and post a total of approximately \$15 million in bonds with the Environmental Protection Agency and Nuclear Regulatory Commission (NRC) to ensure sound reclamation.

Work for the National Association of State Departments of Agriculture

Farmers require reliable information on production, supplies, marketing, prices, weather and a vast array of other inputs. Up-to-date information is essential in planning and administration of federal and state programs. Become part of the team that collects this data across South Dakota. Work includes interviewing farmers in person or over the phone and conducting crop counts in the field.

- Regular training is provided
- Part time flexible schedule
- Paid hourly plus mileage, starting out at the new \$15 per hour federal minimum
- Work in your local area
- Great for building experience in the agriculture sector
- Also a great second income or for those semi-retired

PRINT IS NOT DEAD.

Our brains remember print. Why? Because print commands our attention in a way that digital ads do not.

They are also more credible with a large number of people (71 percent) trusting print ads over television or online ads.

Newspapers are also far from dead with nearly 70 percent of Americans still reading them — 50 percent of those readers consume them in **print only**. You gotta be in the paper!
