PRINT IS NOT DEAD.

Our brains remember print. Why? Because print commands our attention in a way that digital ads do not.

They are also more credible with a large number of people (71 percent) trusting print ads over television or online ads.

Newspapers are also far from dead with nearly 70 percent of Americans still reading them — 50 percent of those readers consume them in **print only**. You gotta be in the paper!

This message is sponsored by Southern Hills Publishing, Inc. and this newspaper.
